Project Name	Auto Ticket Classification Using Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	IT Helpdesk Staff	Process incident requests quickly	I have to manually review each request	Multiple requests are received daily	Overloaded
PS-2	IT Helpdesk Staff	Identify the type of IT issue	I need to review each request manually	Requests include Wi-Fi, projector, password, and computer issues	Frustrated
PS-3	IT Helpdesk Staff	Categorize incidents accurately	I have to manually assign categories	Each request may represent a different type of issue	Concerned about errors
PS-4	IT Helpdesk Staff	Handle Wi-Fi-related incidents efficiently	I need to manually identify network-related requests	Wi-Fi problems are mixed with other incident types	Stressed
PS-5	IT Helpdesk Staff	Process hardware-related incidents quickly	I have to manually identify hardware problems	Projector failures and other hardware issues require manual review	Overwhelmed
PS-6	IT Helpdesk Staff	Process account-related incidents efficiently	I need to manually identify password problems	Password issues are submitted along with other requests	Frustrated
PS-7	IT Helpdesk Staff	Manage computer performance incidents	I have to manually identify slow-computer problems	Performance issues are mixed with other incident requests	Concerned about delays
PS-8	IT Helpdesk Staff	Manage all incident requests efficiently	Manual review and categorization takes significant time	The helpdesk receives multiple requests every day	Overloaded and inefficient
